

**PUBLIC  
PERSPECTIVES**

**GEORGIA VOTERS  
ON JOBS, SKILLS TRAINING  
AND THE ECONOMY**

In Georgia, a majority of jobs (54%) require skills training beyond high school, but not a four-year degree.<sup>1</sup> What's more, rapidly changing technology in the workplace increasingly necessitates lifelong access to skills training for nearly all Georgia jobs, 90% of which require digital skills.<sup>2</sup> NSC's new public opinion research affirms that Georgia voters understand that jobs requiring skills training are the backbone of the economy.

A majority of Georgia voters (69%) would take advantage of opportunities to engage in skills training if offered and an even larger share (95%) agree that access to skills training is a key characteristic of a good job. It's therefore not surprising that an overwhelming majority of Georgians (84%) want policymakers to increase funding for skills training and over two-thirds (73%) are more likely to support elected officials who make it a priority.

## GEORGIA PUBLIC PERSPECTIVES

# ON JOBS

### For Georgians, access to skills training is one defining characteristic of a “good job.”

Nearly all Georgia voters (95%) say access to skills training is one of the characteristics that define a good job, including 67% who strongly agree. This opportunity is valued nearly equally by those with a college degree (65%) and those without (68%).

### VOTER PERCEPTIONS OF CHARACTERISTICS OF GOOD JOBS

## GEORGIA PUBLIC PERSPECTIVES

# ON SKILLS TRAINING

### Most Georgians would take advantage of opportunities to build their skills.

One-third (33%) of Georgia voters have engaged in skills training, and over two-thirds (68%) have either been through a skills training program themselves, know someone who has, or both. Over two-thirds (69%) would take advantage of opportunities to engage in skills training. Key groups most likely to take advantage of skills training opportunities include Black voters (82%) and voters under the age of 50 (75%), especially people under 50 without a college degree (77%).

### LIKELINESS OF GEORGIANS TO TAKE ADVANTAGE OF SKILLS TRAINING TO ADVANCE IN THEIR CAREER

■ Likely ■ Unlikely ■ Don't Know

## Across party lines, Georgia voters overwhelmingly support increasing government funding for skills training and candidates who prioritize this issue.

Overall, 84% of Georgia voters support expanded public funding for skills training, including almost half (48%) who strongly support it, while only 12% are opposed. More than 75% of voters indicate support across demographic and geographic subgroups. The issue draws notably strong bipartisan support with a vast majority of Democrats (94%), Independents (81%), and Republicans (76%) in support of increasing state funding for skills training.

### SUPPORT FOR INCREASING GOVERNMENT FUNDING FOR SKILLS TRAINING

■ Support ■ Oppose ■ Don't Know

## Voters are more likely to support a candidate who invests in skills training.

Overall, 73% of Georgia voters indicate they are more likely to support a candidate for public office who supports increasing government funding for skills training. This is a compelling issue for Independents, Republicans, and Democrats.

### LIKELINESS TO SUPPORT A CANDIDATE WHO SUPPORTS SKILLS TRAINING INVESTMENTS

■ More Likely ■ Less Likely ■ No Difference/Don't Know

**Many Georgia voters believe that artificial intelligence (AI) will be important in their jobs and see skills training as essential to adapting to new technologies.**

Over one-third of Georgians (39%) have already encountered AI on the job and over half (52%) believe that learning to work with AI will be important for their job in the future. Equal percentages of voters think AI will positively (33%) and negatively (33%) impact their work. Over half (61%) of Georgians believe that limited access to skills training to help workers adapt to AI is a serious problem.

**GEORGIA PUBLIC PERSPECTIVES ON THE ECONOMY**

**Georgia voters perceive lack of access to skills training as a significant challenge facing workers in the current economy.**

Georgians identify a range of issues confronting workers in the state, from jobs being shipped overseas (71%) to jobs having unnecessary degree requirements (56%) – and more. Nearly two-thirds (63%) believe lack of access to training is a serious problem.

**VOTER PERCEPTIONS OF ECONOMIC CHALLENGES FACING WORKERS**

## Georgia voters believe that skills training is essential to industries that are important to the state's economy.

Voters believe that skills training is essential to the success of key industries that impact health, safety, quality of life, and economic growth.

### PERCENTAGE OF VOTERS WHO THINK SKILLS TRAINING IS EXTREMELY OR VERY IMPORTANT TO ESSENTIAL INDUSTRIES
